Graduated cylindrical bottle in dark gray LDPE with narrow mouth 250 ml

with screw cap and undercap

Narrow-mouth graduated cylindrical bottles made of **LDPE** , dark gray in color, ideal for both liquid and solid photosensitive materials.

Equipped with an undercap to ensure a perfect seal and holes on the shoulder to allow the application of safety seals or tags.

The dark gray color inhibits the passage of UV rays, therefore they are also suitable for the storage of liquids that oxidize quickly.

SUITABLE FOR FOOD CONTACT
