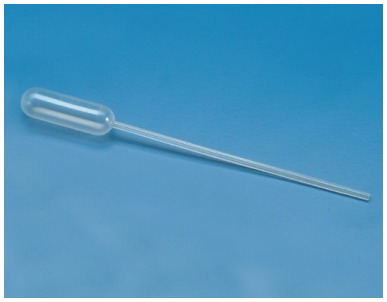
Pasteur pipettes length 150 mm capillary stem

not graduated



Pasteur pipettes are indispensable tools for handling and dispensing liquids in various laboratory settings.

Made of PE, they offer long-lasting durability and resistance to various chemicals.

Designed for single use, these pipettes ensure maximum hygiene and minimize the risk of cross-contamination between samples.

The transparent material allows for clear visualization of the contents and liquid volume, facilitating accurate measurement.

Suitable for a wide range of applications in clinical, research, and industrial laboratories.

Available non-sterile in dispenser boxes, sterile in multipacks, and sterile in single packs.

Code	Description	Length mm	Sterile	Single pack	Capacity ml	Pack	Packaging
