

## CALIBREX Socorex bottle dispensers mod. 520 UNIVERSAL

The Calibrex™ line offers a wide choice of robust dosing tools that ensure excellent chemical resistance, high performance and minimal maintenance.

The line is ideal for the safe and reproducible distribution of liquids in volumes ranging from 0.1ml to 100ml. It is possible to choose between three different models; regardless of the application there is a Calibrex™ model suitable for every need.

Features of the Calibrex™ line

- Selection between three different models
- Model-based color coding
- Integrated calibration key
- Long-lasting performance stability
- Chemical compatibility with QR coding
- Quick disassembly, without the need for tools
- Autoclavable at 121 ° C, fully assembled

Two year warranty

Basic thread GL32.

Supplied with 300mm feed tube, 80mm delivery nozzle with cap, GL 8, GL40, GL45mm bottle neck adapters, QC certificate and instructions for use.

Available models have adjustable volumes from 0.25 to 2ml, 1 to 5ml and 1 to 10ml.

Fixed versions are also available with any volume included in the dispenser range.  
The same bottle neck adapters as above are included.
