

## Sterile lancing device with plastic protection

Lancets designed for easy blood sampling.

The particular sharpening of the tip allows easy penetration while the plastic handle protects the operator from accidental contact with the blood sample.

- Disposable, non-toxic, non-pyrogenic.
- Sharp tip to allow easy penetration.
- Handle to prevent accidental contact with the blood sample.

Characteristics of the components

- Support for lancet length 23 mm (+/- 0.1 mm); width 5 mm (+/- 0.05 mm).
- Hand length 3.1 mm (+/- 0.05 mm).
- Triple sharpened tip with primary angle of 11 ° +/- 2 ° (ISO 7864 standard); 0.45 mm external diameter (ISO 9626 standard).
- Disc tip protector disc diameter 9.4 mm (+/- 0.1 mm).

Gamma ray sterilization 25 Kgy.

Medical device (RDM n.184921)

with CE mark and batch number for information and traceability.
