

Disposable sterile scalpel blades

in stainless steel

Surgical blades in stainless steel, sterile, for scalpels.

All manufactured to BRITISH STANDARDS BS 2982: 1992, BS 5194: 1992 and ISO 7740: 1985 requirements.

Each blade is branded and individually packaged in aluminum foil.

The size of the blade is clearly identified on the back of the sheet and by a colored and coded sticker on the boxes.

Gamma ray sterilized.

Medical device class IIA

Code CND V0103

Packs of 100 pieces
