

"CRUSADER" heatproof gloves

5 fingers - Length 33 cm - pair

Pair of fully lined long cuff gloves for special uses, heat resistant.

The lining is sewn in non-woven fabric, and impregnated with nitrile.

Highly resistant to heat (max. 250 ° C) and wear.

Outperforms bouclé cotton in durability and protection.

Very soft and long lasting.

Packaging 12 pairs.

Applications: oven painting, cooking of food, extraction of products from molds, handling of foundry pieces, extraction of sterilized products in autoclaves, etc.

On request also available in the 24 cm version.
