

Metal caps for test tubes (culture tubes)

Tube caps without handle, made of high quality aluminum, with colored anodized coating.

For sterile but non-hermetic sealing of tubes.

Chromed steel springs, held on the outside of the test tube.

Features:

- stainless
- washable with neutral detergent (max. 140 ° C)
- reusable
- heat resistant up to 140 ° C
- sterilizable
- right seal
- air circulation is guaranteed
- available in different colors for easy recognition

On request available with handle (diam 12-13 / 17-18)
