

Powder free nitrile gloves size XL

Pack of 100 pcs

Nitrile gloves are the best choice for elasticity, mechanical and chemical resistance, sensitivity and ergonomics.

Nitrile is the ideal material for those who handle food or need maximum protection when working in contact with chemicals and / or body fluids.

Furthermore, those allergic to natural latex proteins can find a valid alternative in this type of disposable gloves, more expensive and resistant (to traction and perforation) than the one made of vinyl but able to protect against chemical agents, microorganisms. and harsh chemicals.

Disposable NITRILE glove, not sterile.

Micro-rough surface.

Totally free of talc, it is ideal for sensitive skin.

The manufacturing material and the thickness guarantee the product a high resistance and sensitivity.

AQL 1.0 for absence of holes
