Compact benchtop centrifuge model EBA 200

with angular rotor complete with test tubes - n.8 x 15 ml

The EBA 200 is the ideal centrifuge for medical practices .
It can hold a variety of sample tubes and even glass tubes without the need for an adapter .

The EBA 200 has a very small footprint and fits into the world of work flexibly:
- takes up little space in the laboratory
- can be easily moved
- does not require any installation
- it's easy to use
- the lid can be closed with one hand and opens by pressing a button.
- The lid locking mechanism allows opening only after the rotor has come to a complete stop.
- Pulse key for short centrifugations
- control panel
- protection against overheating

It is equipped with an angular rotor complete with test tubes - n.8 x 15 ml

Adapters for other blood collection tubes are available upon request .

Made in Germany

Technical data

Angular rotor 8x15ml (included)
Angle: 33 °
Max RPM : 6,000 rpm
RCF max .: 3,461

Brushless induction motor

Cooling : by air

External dimensions of the product

Height	228	mm
Width	262	mm
Depth	352	mm
Weight	9	Kg
