

Over 50 years in cooperation with the health world, the scientific research, the environmental and quality control world

Digital thermoblock mod. TD 200 P3

for 3 aluminum blocks

Digital thermoblocks are designed to be widely used in chemical, biochemical, clinical and generic laboratories for storage, digestion, incubation, concentration and other heating processes, thanks to the integrated three-step temperature programming, it is very useful in the enzymatic reaction. and in other catalytic chemical reactions.

Hot lock indicator
Temperature stability indicator
Digital timer
Display: temperature resolution 0.1 ° C
Access hole for calibration
Multifunction button

Settable temperature: from 25 ° C to 200 ° C

Power supply V / Hz 230 / 50-60 Safety class 0 Protection class IP 30

Note: The instruments are supplied without aluminum blocks

External dimensions of the product

Height	110 mm	
Width	305 mm	
Depth	290 mm	
Weight	4.1 Kg	

Code Description
F242213 Digital thermoblock mod. TD 200 P3
for 3 aluminum blocks
