

Test tubes without additive 13 x 100 mm, asp. 6 ml

Polyethylene terephthalate (PET) tubes.

Resistant to mechanical stress, centrifugation, breakage in normal conditions of use and in case of accidental falls.

Polyethylene terephthalate (PET) is a transparent material that allows visual inspection of the biological liquids collected.

Sterile

The closure system consists of a pierceable butyl rubber stopper and a polyethylene protection / safety cap.

Self-adhesive paper label, for specific medical uses, size 40x20 mm.

APPLICATIONS: It can be used for the collection of samples of biological liquids other than blood or as a waste tube.

Pack of 100 pieces - Packing 12 packs of 100 pieces

Also available with red cap
