

## Points 5 - 200 and MLA

### bag of 1000 pieces

Our tips for micropipettes are tapered standardized on the main brands on the market, with accurate cone geometry to ensure optimal adaptation. CE marked products (IVD).

Made with high quality cadmium-free virgin polypropylene granules, they offer a water-repellent surface with very low retention and optimal flow on the tip opening.

They are available in bulk in 1000 pieces polyethylene bags

The tips are in PP polypropylene autoclavable at 121 ° C.

CND code: W0503020202

Micropipette type:
