

Sterile graduated pipettes in single pack

TPP

Sterile graduated pipettes in single pack, made of PS polystyrene with excellent optical transparency.

- high visibility of the graduation, bidirectional (ascending, descending) and graduation in addition to the set volume of the pipette
- smooth internals that prevent cell aggregation inside the pipette
- Color coded cotton caps and dispenser boxes for easy identification
- Individually packaged in practical paper bags

Serological pipettes with extra reservoir (25ml and 50ml) US Patent 8113067 B

- Manufactured with the highest quality polystyrene, they have extremely resistant and robust tips
- the extra tank offers the possibility of having high capacities in a compact and ergonomic design, increasing the total capacity of the volume without adding more length to the pipette
- slim and short shape allows ergonomic working conditions under a sterile hood
- free-fall pipette tip design.

Code	Description	Volume ml	Color code	diam. xh mm	ml graduation	Pieces per pack.
2794001	Sterile graduated pipettes in single pack ml 1	1	yellow	4.8x270	1/100	400
2794002	Sterile graduated pipettes in single pack ml 2	2	verde	5,5x270	1/100	300
2794005	Sterile graduated pipettes in single pack ml 5	5	blu	9,5x295	1/10	200
