

Doser by bottle Calibrex Socorex mod. 530 SOLUTE ml 1 - 10

The Calibrex™ line offers a wide choice of robust dosing tools that ensure excellent chemical resistance, high performance and minimal maintenance.

The line is ideal for the safe and reproducible distribution of liquids in volumes ranging from 0.1ml to 100ml. It is possible to choose between three different models; regardless of the application there is a Calibrex™ model suitable for every need.

Features of the Calibrex™ line

- Selection between three different models
- Model-based color coding
- Integrated calibration key
- Long-lasting performance stability
- Chemical compatibility with QR coding
- Quick disassembly, without the need for tools
- Autoclavable at 121 ° C, fully assembled

Two year warranty.

Calibrex™ solutae 530 is equipped with a PFA coated plunger which prevents it from locking inside the cylinder. This allows for trouble-free distribution of saline solutions, weak and strong acids, as well as bases.

Basic thread GL45.

Supplied with feeding tube, dispensing nozzle with cap, bottle neck adapters, QC certificate and instructions for use.

1 and 2.5ml: 300mm feed tube, 90mm dispensing nozzle, GL25, GL28 and GL32 adapters

5 and 10ml: 300mm feed tube, 90mm dispensing nozzle, GL28, GL32 and GL40 adapters

25ml and more: 350mm feed tube, 120mm dispensing nozzle, GL32, GL38 and GL40 adapters

 <p>Disassemble all parts in an instant for cleaning.</p>	 <p>Access the chemical compatibility table immediately.</p>	 <p>Make sure there are no air bubbles thanks to the transparent parts.</p>	 <p>Adjust the volume with just one hand. The auto-locking system prevents mistakes.</p>
