Low form beaker (glasses) in PMP (TPX®) 250 ml

with embossed graduation - Class B

Graduated cups made of Polymethylpentene and according to the ISO 7056 - 1981 (E) and BS 5404 Part 1 Standards

Perfectly transparent, autoclavable, they resist temperatures up to + 170 ° C for short periods.

They have a cylindrical shape, with a flat bottom. The permanent graduation is embossed and easy to read.

The particular shape of the beak facilitates emptying.

They have excellent chemical resistance and are endowed with good chemical inertness.

Suitable for food contact.
