Low form beaker (glasses) in PP 50 ml

with blue graduation - Class B

Graduated cups made of heat-resistant and highly transparent PP polypropylene, according to the ISO 7056-1981 (E) and BS 5404 Part 1 Standards

Permanent graduation, they have excellent chemical resistance.

The particular shape of the beak facilitates emptying.

They are autoclavable at + 121 ° C for 20 minutes and withstand + 100 ° C during continuous use.

Suitable for food contact.
