

## Disposable cylindrical round bottom plastic test tubes with double locking cap, sterile

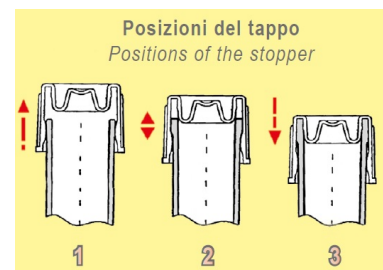

Cylindrical test tubes in PS (polystyrene or polystyrene), with round bottom and double-closing cap.

The special double-position cap allows, with a slight pressure, to ensure the aeration of the sample (aerobic cultures) and, with a higher pressure, to obtain hermetic sealing (anaerobic cultures).

Usable from -20 ° C up to +70 ° C.

The tubes are irradiated with ionizing radiation.

CE - IVD mark

Code	Description	Cap.nomin.ml	Diam.xh mm	Material	Sterile	Pieces per pack.
05117225	Test tubes PS 12x75 with double locking cap, sterile	6	12x75	PS	yes	500 (bags of 25 pieces)
05117227	Ps 12x75 test tubes with double closure cap, sterile, single pack	6	12x75	PS	yes, single pack	1000
05117245	PS 17x100 test tubes with double locking cap, sterile	14	17x100	PS	si	1000 (bags of 25 pieces)
