

## PP containers with self-sealing airtight screw cap cap. 250 ml

Plastic containers are the best solution to the problems of fragility, safety and handling of the packaging.

These cylindrical containers in white PP polypropylene have a wide mouth and a self-sealing hermetic screw lid.

The sealing screw lids ensure total ease of use for a perfect opening and closing of the jars.

Thanks to the wide mouth they are suitable for containing: creams, semi-solid substances, crystals, granulates and powders.

Suitable for food use.
