

Cross shaped magnetic stirrers 15x10

Particularly shaped magnetic stir bars to be used even in small containers.

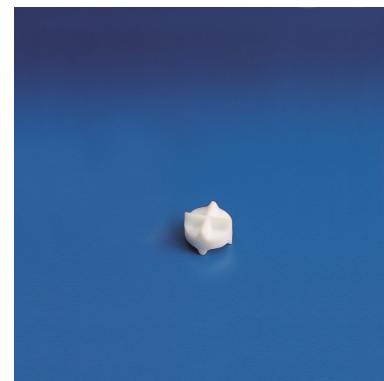

Symmetrical ribs both in the upper and lower part.

Particularly effective stirring action even at low speeds, both on flat and curved bottoms.

Excellent agitation at the bottom, center and top of the container.

They withstand temperatures up to + 260 ° C

They have internal Alnico V magnets which give them characteristics of high durability and power, encapsulated in first choice PTFE casings.
