

Over 50 years in cooperation with the health world, the scientific research, the environmental and quality control world

Certainty

System for the classification and storage of microscope slides, made of shockproof PMMA and steel.

The semi-transparent ice color gives it a particularly captivating appearance while the metal structure that composes it makes the histoteca particularly stable, while at the same time guaranteeing the value of lightness, functionality, resistance and durability.

The complete system consists of 4 sliding drawers and four fixed support feet (code 031946L1) or four swivel wheels (code 031945L1) to ensure mobility.

Each single drawer can accommodate up to 13 slide holders (code 03100921) and relative transparent lids (code 03100920) can be ordered separately.

Each holder can hold 100 microscope slides, easily removable. Each cavity is numbered.

The transparent lids guarantee a quick consultation of the contents, protect the slides from dust and other foreign bodies.

The complete histotheque can therefore contain up to 5,200 slides.

Optional accessories:

If after the purchase of the histoteca equipped with feet it were necessary to equip it with four swivel wheels, the code for the purchase of the four wheels is 031947L1

Conversely, if in later times the purchase of the histoteca equipped with wheels it was necessary to equip it with the four fixed feet, the code for the purchase of the four feet is 031948L1

Code	Description
031945L1	Four-drawer cabinet with swivel wheels
031946L1	Cabinet with four drawers with support feet
031947L1	Swivel castor set for istoteca with support feet
031948L1	Set of 4 support feet for istoteca with swivel wheels
