

## ULTRA TURRAX homogenizer mod. T50 digital

Powerful turbo emulsifier for volumes from 0.25 to 30 l (H<sub>2</sub>O) with digital speed display.

It offers a wide speed range from 500 to 10,000 rpm which allows users to work at high circumferential speeds even with small diameter rotors.

A wide choice of dispersing elements guarantees a wide range of applications.

Reproducible operations thanks to constant speed even with varying viscosities.

Digital speed display

Electronic speed control

Electronic overload protection

The stainless steel dispersing elements can be cleaned quickly and easily

Regular start

Error code display

Supplied with shaft key and generator key

The dispersion rods are not included: you can find the various models in the ATTACHMENTS section - Brochures.
