

Peristaltic pump mod. SP311-2

Peristaltic pump ideal for the transfer of gases, liquids, mixtures and emulsions in various industrial sectors, samples and continuous dosing, automation of analysis

Minimal maintenance

Easy cleaning - no contact of liquid and mechanical parts

The tubes (2 diameters available) resist most chemicals

Electronic speed control

Head: 10 meters of water column

Code	Description	Tubes dimensions (mm)	Flow rate (ml / min)
V1402002	Peristaltic pump mod. SP311-2	4x7	2-35
