Socorex PROFILLER 437 pipette aspirator

Robust and easy to use, this model features an ergonomic shape and low weight and provides effective control of aspiration and dispensing operations through the use of glass or plastic pipettes with a maximum volume of 100ml.

One year warranty.

- Large capacity pump
- Soft action cursor
- Effective ejection system
- PTFE membrane protection filter
- No maintenance required
- Alternative front cones available in various colors

Protection filter

Interchangeable hydrophobic membrane filter effectively protects against contamination during aspiration and dispensing.

Pressure pump

Simply squeeze the large capacity silicone bulb for efficient suction. If necessary, the pump can also be used during pipetting.

Precision control

The thumb lift button, specially designed for left-handed users as well, allows you to easily control the suction and dispensing speeds.

Liquid expulsion

Press the large button to expel residual liquid when using ejector pipettes.
