

Automatic pipette with repetitive dosage Brand mod. HandyStep® Touch S

Repetitive dosing pipettes, especially in the case of a continuous series, should not tire the user.

Dosing long series with high precision in a simple way, in harmony without effort and fatigue of the hand is certainly of great importance.

BRAND's new repetitive pipette is the first choice when it comes to efficient dispensing of long runs.

- ☑ Simple: operation via touchscreen
- ☑ Easy: Compatible with tips from other manufacturers
- ☑ Efficient: automatic tip ejection

With the touchscreen display, you can conveniently scroll back and forth between functions and always have an overview of essential information on your work steps.

Operation is easy, even with protective gloves.

And speaking of ease, the days of manually changing tips are over.

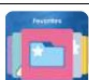

On the HandyStep® touch, simply touch the Eject icon on the display lightly to eject the tip.

Quick volume setting via keyboard

New volume ranges for multiple dispensing: For even more flexibility in volume setting, the new version offers finer step ranges in all modes.

Calibration Reminder: In addition to saving the last calibration, you can now also set a reminder for the next calibration date.
