

Funnels in HDPE for pouring diam. 120 mm

General purpose funnels, made of white high density polyethylene, for a wide range of liquids.

They have a circular edge to prevent overflows and a smooth internal surface.

Equipped with external ribs for air vent and eyelet to hang them with ease.

Available in different diameters and capacities.

Code	Description	Upper diameter mm	Edge mm	Cap.ml	Shank diameter mm	Shank length mm	Pieces per pack.
