

Gilson tips D1000 ul 100-1000

Gilson Diamond tips

Material: Polypropylene

Autoclavable: yes

Sterile: no

ECOPACK, in bulk format (bags)

PIPETMAN® DIAMOND Tips are designed to fit your PIPETMAN perfectly. They deliver accurate and precise pipetting when used in conjunction with Gilson pipettes. ECOPACK™ is an economical way to order tips. Each ECOPACK contains 10,000 fully-autoclavable tips (10 bags of 1000 tips). The bags are sealed with a tamper-proof, rapid-sealing strip for easy access and to prevent contamination and loss of tips. Color-coding on the label enables easy identification and compliance with Good Laboratory Practice (GLP).

Accurate and Precise

Using PIPETMAN DIAMOND Tips with your PIPETMAN ensures maximum accuracy and precision and delivers consistent results. The perfect air-tight seal prevents leaks. The tips are made of pure polypropylene to deliver the correct volume and ensure complete dispensing. Volume graduations make it easy to visually check the volume aspirated.

Reliable

Our tips are manufactured in a clean room environment ensuring they are free of detectable contaminants that can affect your experiments. From mold to bench, they are guaranteed, certified, and traceable to meet the most stringent demands in many applications.

Economical

Ordering in bulk and simply reloading the tips into empty racks saves you money.
