Rectangular trays cavities

9 cavity

The hollow PVC trays can contain bottles with a base diameter not exceeding 22 mm.

They are ideal for holding 7 ml bottles in each of the 9 compartments; 12 bottles can also be housed for a total of 126 pieces.

The PVC trays with compartments are very useful for storing small items to keep in the drawer.

The central compartment of the 5-cavity tray can be used to store serological pipettes
