

Graduated cylinders in PP - low form

low form - 100 ml

Cylinders made in Polypropylene.

Low shape and equipped with a large circular base.

Unalterable, easy-to-read embossed graduation.

The low shape makes them ideal for use in confined spaces, such as inside fume hoods.

Excellent chemical resistance and autoclavable.

They can withstand temperatures up to +120°C

SUITABLE FOR FOOD CONTACT.

MATERIALS: PP
