

Graduated cylinders in PMP - low form

1000 ml

Made in Polymethylpentene (TPX®)

Low shape and equipped with a large circular base.

Unalterable, easy-to-read embossed graduation.

The low shape makes them ideal for use in confined spaces, such as inside fume hoods.

They have excellent chemical resistance and are autoclavable.

They can withstand temperatures up to +170°C

SUITABLE FOR FOOD CONTACT.

MATERIALS: PMP (TPX®)
