

Socorex QUALITIX tips with filter, blunt tip from 2 µl to 20 µl.

The Qualitix® pipette tips

The Qualitix® pipette tip programme is all about quality, flexibility and compatibility.

An extended line for accurate liquid delivery, fitting not only Socorex but all major micropipette brands.

Packaging selection (bags, racks and tipfill™ rack filling system), together with a choice of tip styles with and without protection filter, offer appreciated versatility.

Qualitix® and Socorex micropipettes are the most perfect match for optimized test results.

- Wide selection, superior quality, -autoclavable
- Bags, racks and tipfill™ rack filling system
- Lot by lot consistency
- Certified free of nuclease, endotoxin and ATP
- Reduced packaging size, less bench space requirement
- Broad compatibility with major micropipette brands
- Low Bonding version on request

Beveled and fine pointed

Beveled tip end **a** greatly reduces sticking of liquid drops. Fine pointed tips **b** have a thin and soft end, enabling small liquid volume deposit, thus enhancing reproducibility in repeat pipetting. A long and soft end is appropriate for gel loading **c**.

Aerosol protection - No contamination

Filter tips include a 10 µm pore hydrophobic HDPE filter to retain any contaminant, efficiently protecting both pipette and sample. Certified high tip purity and gamma irradiation.

Qualitix® *bioproof™* level

The Qualitix® line is free of detectable DNase, RNase, Pyrogen (Endotoxins) and ATP. Filter tips are additionally certified free of detectable human DNA and protease.

Qualitix® tips for filter pipettes Socorex

QUALITIX filter tips are equipped with a **hydrophobic protection filter in HDPE with 10 µm porosity**, for efficient protection from aerosol contamination, for pipettes and sample.

All Socorex QUALITIX filter tip codes are **gamma sterilized** and certified.

Optimal seal to perfectly fit Socorex® pipettes and wide compatibility with other brands.

Packaging in **sterile racks** with lids sealed with heat shrink.
