

## HDPE drums with tap

### with rectangular base - from 5 to 100 litres

Very robust and resistant, they are equipped with a closing cap with gasket and vent.

In the lower part of the drum it is possible to apply either a 5/8" tap (7/8" from 25 to 100 litres) and a cap (already included).

Ideal for containing liquids and for products subject to fermentation.

Material: High density polyethylene

Color: Neutral

Suitable for contact with food

Code	Description	Volume litres	Dimensions mm	Height mm	Mouth diameter mm	No. of handle
