

HDPE drums with tap

with rectangular base - from 10 litres

Very robust and resistant, they are equipped with a closing cap with gasket and vent.

In the lower part of the drum it is possible to apply either a 5/8" tap (7/8" from 25 to 100 litres) and a cap (already included).

Ideal for containing liquids and for products subject to fermentation.

Material: High density polyethylene

Color: Neutral

Suitable for contact with food
