

MEDICAL H 610 GT impulse medical heat sealer

Impulse heat sealers for sealing medical pouches and rolls made of PE, PP/paper, paper/paper, and other heat-sealable medical laminates, in compliance with DIN 58953-7.

Manual operation or with an electric foot pedal (optional).

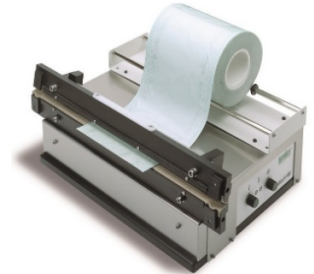

AISI 304 stainless steel casing.

8 mm seal to ensure a perfect seal and easy, safe peeling.

Maximum seal lengths: 460 mm, 610 mm, and 710 mm.

Ease of use, maximum operator safety, electronic control of sealing and cooling times, which can be adjusted independently.

Manual operation or with an electric foot pedal (optional).

Advantages and Benefits

- Maximum ergonomics: Ease of use and maximum operator safety. Manual or electric pedal operation (optional).
- Reliability: Electronic control of sealing and cooling times, independently adjustable.
- Safety: 8 mm flat seal for a perfect seal and effective peeling. Double sealing bar, with the option of working with a single sealing bar.
- Flexibility: Can be equipped with a built-in roll holder and cutting system; cutting length 370 mm, 500 mm, 610 mm depending on the version.
- Sanitization: Stainless steel cover for maximum cleaning and disinfection.
- Energy saving: Designed and manufactured to optimize the process, fully complying with energy saving efficiencies.
