

## Universal hydrometers

Hydrometers with and without thermometers of various scales

Temperature Ref. 20°C

Paper scale

Shot weighted body

Hydrometer accuracy  $\pm 1$  scale division

Thermometer inside the hydrometer body

Capillary round

Filling: special wetting liquid\*

Transparent plastic case

### ON REQUEST:

- Available with thermometer 0-40°C, div. 1°C
- Available with other scales

| Code    | Description                                                                                 | scale g/cm <sup>3</sup> | division g/cm <sup>3</sup> | length mm |
